## Summary

Passionate software developer with 5 years of experience specializing in JavaScript and related technologies for both Frontend and Backend development. Committed to delivering high-quality work with strong attention to detail. Excellent team player who collaborates effectively, enjoys sharing knowledge and learning from peers.

## Work Experience

### Amdocs

07/2021 - Present

Full Stack Developer

- Developed UI for a web app using React and Redux for an international telecommunications company.
- Collaborated with colleagues from diverse teams across the globe to develop and deliver.
- Investigated and reproduced defects, enabling the development of software fixes.
- Provided production support and took ownership of feature development.
- Worked as part of an Agile team and actively involved in the software development lifecycle.
- Authored technical guides to enhance team efficiency.
- Developed UI for a mobile app using Flutter and Dart for a leading telecommunications company.
- Implemented the Model-View-ViewModel architecture in the mobile app, ensuring a maintainable codebase.
- Implemented unit tests for the mobile app, guaranteeing high-quality code delivery.
- Built GraphQL APIs with Federation architecture using Node.js, TypeScript, Fastify, and Mercurius.

### Cambium Applicable Innovation

12/2019 - 07/2021

Full Stack Developer

- Developed UIs for web apps using React and Redux, benefiting leading local organizations.
- Built scalable RESTful APIs using Node.js, Express, MongoDB, and Mongoose.
- Led the development of a mobile app from scratch using React Native and Firebase.
- Owned the mobile app project's success, working closely with the customer.
- Integrated external data sources and APIs using third-party libraries to meet customer requirements.
- Researched and studied new technologies to develop potential new services for the company.

## Education

SCE Sami Shamoon College of Engineering, Beer-Sheva

2015 - 2019

B.Sc Software Engineering

## Army

### Border Police

2010 - 2013

Team Commander

- Commanded over a team of 5-10 soldiers.
- Dealt with pressure and extreme situations.
- Met a tight and aggressive schedule and knew how to focus and prioritize tasks.

## Skills

- **Frontend Technologies:** HTML, CSS, JavaScript, TypeScript, React, Redux, Bootstrap, Material-UI.
- **Backend Technologies:** Node.js, Express, GraphQL, Fastify, Mercurius, MongoDB, Firebase.
- **Mobile Technologies:** React Native, Flutter & Dart.
- **Tools and Platforms:** Git & Github, Postman, App Store Connect, Google Play Console, Perforce.

## Languages

- Hebrew - Native
- English - Proficient
